

ella[®]

**ULIPRISTAL ACETATE
TABLET 30 MG**

NDC# 73302-456-01

THE IMPORTANCE OF AN ADVANCED PRESCRIPTION FOR ELLA[®]

Providing access to emergency contraception pills (ECPs) and reducing barriers before they are needed helps individuals take action promptly after unprotected sex, which is when ECPs are most effective. For this reason, the American College of Obstetricians and Gynecologists (ACOG) recommends providing an advance prescription for ulipristal acetate (ella).
